THE PROJECT

Located in the city of Nieuwkoop in the Netherlands, Robey's Gym welcomes fitness enthusiasts of all levels every day. The gym's owners wanted to give their customers a warm, inviting and fun environment for working out, while maintaining high acoustic performance levels to improve comfort for the gym's users.

THE CUSTOMER'S REQUIREMENTS

- Stylish design
- Acoustic comfort
- Originality

OUR RESPONSE

A solution with Noir V7 TONGA® A22 tiles and TONGA® tiles with the Cubes EuroDesign was suggested to bring the style and acoustic absorption required for members' comfort and well-being, while adding a modern touch.

TONGA® A22 TILES IN NOIR V7 AND TONGA® TILES IN NOIR C1 CUBES EURODESIGN

The Noir V7 TONGA® A22 tiles create a dark atmosphere that is conducive to improving concentration and creating an "infinite" effect.

The Noir C1 Cubes EuroDesign TONGA® tiles are a perfect match for the Noir V7 TONGA® A tiles, with their homogeneous black background dotted with a lighter geometric and regular pattern that conjures up images of the night sky. Cubes EuroDesign tiles add a touch of originality and character, like an open invitation to set personal bests during the workout!

The Eurocoustic range of decorative solutions gives the gym its very own identity. The chosen EuroColors & EuroDesign tiles produce a unique and stimulating atmosphere.

- **Acoustic performance**: Thanks to their maximum acoustic absorption performance of α_w = 1, TONGA® A22 tiles improve acoustic comfort for gym-goers by reducing ambient noise to ensure that conversations with personal trainers are clearer and more intelligible.
- **Stylish design**: TONGA® A22 tiles are available in 40 plain colors (EuroColors) and 6 new designs (EuroDesign), as well as in a wide choice of dimensions. For the gym, the customer chose 1,200x600 mm tiles.

KEY PRODUCT FEATURES

- Acoustic absorption: α_w= 1
- Reaction to fire: A2-s1, d0 for EuroColors and EuroDesign tiles
- IAQ: Class A+
- 15-year warranty for the complete system (tiles and grids)

Robey's Gym - Nieuwkoop - Netherlands

KEY PRODUCT FEATURES

- Grids to match the tiles for greater visual comfort
- Quick and safe to install
- Reaction to fire: A2-s1, d0
- IAQ: Class A+

BLACK T24 QUICK-LOCK® HOOK-ON GRIDS

Quick-Lock® grids boast a number of advantages, including fire safety performance and easy installation.

They improve visual comfort and bring style and sophistication, since they blend seamlessly with the matching TONGA® tiles. Using materials with dark tones guarantees a highly discreet ceiling.
